

Attribute Work Level 9-12

ELC-3020

COMMON CORE

- 3.G.A.2
 - Partition shapes into parts with equal areas. Express the area of each part as a unit fraction of the whole.
- 5.G.B.3
 - Understand that attributes belonging to a category of two-dimensional figures also belong to all subcategories of that category.
- 6.SP.B.5
 - Summarize numerical data sets in relation to their context, such as by:
 - Reporting the number of observations.
 - Giving quantitative measures of center (median and/or mean) and variability (interquartile range and/or mean absolute deviation), as well as describing any overall pattern and any striking deviations from the overall pattern with reference to the context in which the data were gathered.
 - Relating the choice of measures of center and variability to the shape of the data distribution and the context in which the data were gathered.
- 7.RP.A.2
 - Recognize and represent proportional relationships between quantities.
